SUBJECTS

(References in *italic* figures are to reviews.)

Abnormal psychology, *393, 746 f.*
Absolute judgments, effect of anchors on, 12 f.
Absolute method, *see* Method of single stimuli.
Absolute pitch, 1-14.
Acoustics, *735 ff.*
Acknowledgment of Hunter's photograph, 734.
Adaptation, level, 321 ff.; 327 ff.; syndrome, *394.*
Adjustment, method in psychophysics, 546-550.
Affective value, auditory stimuli, 691-695.
After-effects, brain lesions, 668-678; figural, 259-267, 684-690; 'attraction' in, 174-176, errors in measuring, 543-546, stroboscopic movement and, 259-267; kinesthetic, 668-676.
Aim, accuracy of, 659-667.
American Association for the Advancement of Science, *see* Meetings.
American Philosophical Society, *see* Meetings.
American Psychological Association, *see* Meetings.
Anchoring effects, judgments of pitch and, 12; operant responses of rats, 141 f.
Animal, monkey, discrimination, 517-520; discriminative learning, 720-722; rat, conditioned fear, 15-25, 26-38; discrimination, 133-137, 308-314, 335-337; discriminative learning, effects of, 717 ff.; hoarding, 124-128; operant responding, 141 f.; stripe preferences of, 714-716; successive discrimination, 129-132.
Apparatus, absolute pitch, 1-14; arterial pressure, 351-352; autokinetic movement, 525-529; autonomic activity, 343-352; CFF, 634; gambling, pinball, 57, 69; GSR, 343-347, 357 f.; light, movement of, 143-146; 'Maxwellian view', 530 ff.; movement, visual, 105; non-gambling, 81; olfactometer, 147-151; plethysmograph, electrical, 348-351; pulse, 351-352; shock grid, 154; size-constancy, 464 f.; stimulator, square wave, 353-356; timer, electronic, 358 f.; visual, quantal fluctuations, 152 f.
Apparent movement, figural after-effects, 174 ff., 259-267; measurement of, 525-529.
Apparent orientation, object, 500-508.
Apparent size, brightness, 464-474; figural after-effects, 543-546; fluctuations in, 533-538.
Audition, auditory stimuli, affective value of, 691-695; fatigue, 538-543; pitch shifts, 484-491; figural after-effects in, 278-287; hydraulic theory, 39-55; identification of pitch, 1-15; measurement, *751 f.;* physiological acoustics, *735-739.*
Autokinetic movement, 525-529.

Beats, multiple frequency, 39-55.
Behavior systems, *375-379;* Hull's goal, *375 f.;* value of Hull's principles, *378 f.;* transitional point of view, *379-383.*
Bets, probability-preferences, 56-67, 68-95.
Binocular, rivalry, 513-516; subjective colors, 492-499.
Biography, Walter Samuel Hunter, 732-734; Harry Miles Johnson, 179-181.
Brain, design for, *391;* functions, 220-240; injury, 220-240.
Brightness, effect of, on reversible perspective, 341-342.
Business psychology, *200 f., 392 f., see* Industrial psychology.

Canadian Psychological Association, *see* Meetings.
Cerebral lesions, kinesthetic after-effects following, 668-676.
Chemical sense, the 'common' 696-699.
Child, psychotherapy, *198 f.;* training, personality and, *749 ff.*
Children, rote learning in, 453-463.
Clinical psychology, case-reports, *391 f.;* research, *743 f.*
Cochlear mechanics, hydraulic theory of, 39-55.
Color, binocular, 492-499; binocular rivalry of, 513-516; blindness, means of studying, *182 ff.;* vision, foveal, *182 ff.*
Conceptual framework of psychology, *386 ff.*
Conditioning, fear, 12-25, 26-38; operant, 141 f.
Contiguity vs. drive-reduction, 15-25, 26-38.

Control, experimental, 573-590.
Cross-sensory judgments, 13.
Critical flicker frequency, age, intelligence, and, 711 ff.; fatigue and, 509-512; interocular stimulus differences and, 632-646.

Deficiency, vitamin-B, 124-128.
Diffusion model, visual form threshold, 205-219.
Discrimination, after training on white-black, 714-716; nondifferential reinforcement, effects on, 335-337; nondifferential reinforcement and, 133-137, 717-719; rate of, monkey, 517-520; reversed, 720-722; successive, 129-132; successive and simultaneous, 129-132, 308-314.
Drive-reduction, proximity and abruptness, 15-25; temporal variations, 26-38.
Dynamic psychology, *746 f.*

Eastern Psychological Association, *see* Meetings.
Editorial announcement, 571 f.
Errata, 178.
Experimental psychology, controls, nature and history, 573-589; method and theory of, *550-560.*

Factor analysis, 155-163.
Fatigue, auditory, 538-543; perceptual organization and, 704-707; symposium on, *567 f.;* visual, 509-512.
Fear, conditioned, 15-25, 26-38.
Fechner's, colors, 492-499; law, 406 f.; *VEG* scale and, 677-683.
Figural after-effects, 'attraction' in, 174-176; auditory, 278-287; duration of test-period and, 684-690; errors in measuring, 543-546; kinesthetic, 668-676; stroboscopic movement and, 259-267.
Fitness, motor functions and, 590-611.
Fluctuation, reversible perspective, 341-342, 708-710; size, apparent, 533-538.
Forgetting, absolute pitch, 10.
Form, visual, threshold for, 205-219.
Frequency, auditory, affective value, 691-695; critical flicker, *see* Critical flicker frequency.

Gambling, probability preferences in, 56-67, 68-95; uncertainties, methods for computing, 164 ff.; variance preferences in, 441-452; vs. non-gambling risks, 81-94; with real money, 75; with worthless chips, 74.
Generalization, rote serial learning, 453-463.

Habits, visual discrimination (monkey), 517-520.
Hearing, hydraulic theory, 39-55; measurement of, 751 f.; physiological acoustics, *735-739.*
History, editorial, this JOURNAL, 571-572; exeprimental control, 573-589.
Hoarding, vitamin deficiency and, of rats, 124-128.
Hunter, W. S., *see* Biograph; photograph, facing p. 571.
Human relations, principles of, *202 f.*
Hypnosis, experimental, *199 f., 389 f.*
Hypotheses, verification of, 723-727.

Illusion, apparent size, 533-538; puzzle picture, 550 f.
Images, recurrent, 170-174, 360 f.
Incidental learning, intentional learning and, 521-524.
Industrial psychology, *200 f., 202 f., 392 f., 394, 739 ff., 751.*
Inhibition, retroactive, 299-307.
Inhibiting potential, transfer and generalization of, 453-463.
Intensity, auditory, affective value of, 691- 695.
International Congress of Psychology, *see* Meetings.
Introduction to psychology, 561-565.

Johnson, Harry Miles, *see* Biography.

Kinesthesis, after-effects of cerebral lesions, 668-676.
Korte's laws, stroboscopic movement, 259-267.

Language, *568 f.;* associative probabilities in, 241-258; relation to visual recognition, 315-320.
Law, of effect, experimental analysis of, 612-631; psychiatry and the, *390 f., 747 f.; see* Legal.
Learning, *394, 557 f., 743 f.;* conditioned fear, 15-25, 26-38; discriminative, 129-132, 133-137, 308-314, 335-337; discriminative (monkey), 517-520, 720-722; (rat), 717-719; effectiveness of rewards and punishment, 619-624; incidental vs. intentional, 521-524; latent, 119-123; law of effect, 612-631; massed vs. distributed practice, 268-277; operant, 141 f.; psychomotor, 268-277; rote serial, 453-463; rote verbal, 299-307; theory, *743 f.;* tracking, 475-483; verbal associates, 111-118; word-frequency and, 138-140.
Legal psychology, *390 f., 747 f.*
Localization, visual traces, 338-340.
Logical fallacies, 723-727.

Madness and the law, *390 f.*
Man, modern, science and, *192 ff.*
'Maxwellian view,' 530-532.
Maxwell's spot, *182 f., 185.*
Meaning, philospohy of, *744 ff.*
Measurement, personality, *195 f.*
Meetings, American Association for the Advancement of Science, Sec. I, 176 f.; American Philosophical Society, 370; American Psychological Association, 177 f., 730 f.; Canadian Psychological Association, 178, 554; Eastern Psychological Association 365 f.; International Congress of Psychology, 551 ff.; Midwestern Psychological Association, 368 f.; National Academy of Sciences, 369 f.; Rocky Mountain Branch of American Psychological Association, 366 f.; Society of Experimental Psychologists, 367 f.; Southern Society for Philosophy and Psychology, 369; Western Psychological Association, 553 f.
Memory, musical, 360-363; verbally labelled figures, 315-320; visually perceived form, 647-658.
Method, of adjustment, 546-550; of agreement, 574; of concomitant variations, 575; of difference, 574; of paired comparisons, 96-103; of single stimuli, 96-103, effect of anchors on, 12 f.; of successive reproduction, 647; statistical, *566 f.*
Midwestern Psychological Association, *see* Meetings.
Model, brain, *391;* visual form, diffusion, 216 f.; Osgood-Heyer's, 218.
Monkey, *see* Animal.
Motor functions, accuracy of aim, 659-667; tests of, human fitness and, 590-611.
Movement, apparent, 174 ff., 259-267, 525-529; autokinetic, 525-529; visual thresholds of, 104-110.
Murder and the law, *390 f.*
Musical memory-mechanisms, 360-363.

National Academy of Sciences, *see* Meetings.

Obituary, *see* Biography.
Olfactometer, 147-151.
Opinion, public, *190 ff.*
Operational point of view, *193, 195.*
Orientation in darkness, 500-508.

Practice, effects of, 594; influence on absolute pitch, 1-14.
Perceived form, temporal change in, 647-658.
Perceived size, photometric brightness and 464-474; relation to perceived distance, 411-426.
Perception, auditory pitch, 404-491; binocular subjective color, 492-499; critical flicker frequency, 632-646, 711-713; following fatigue, 704-707; judgment of size, 464-474; object orientation, 500-508; pain, 696-699; perceived size 411-426; perceptual, organization, 708 ff., processes, *556 f.;* reversible perspectives, 341 f.; tactual, 220-240; threshold for words, 700-703; transactional approach, *779 ff.;* verbally labelled figures, 315-320; visual, 204, form, 205-219, 647-658.
Personality, child training and, *749 ff.;* development, *203 f.;* measurement of, *195 f.;* psychoanalysis and, *195 f.;* subculture and, *570;* theory, *743 f.;* types, *570.*
Personnel, administration, *300 f.*
Perspective, reversible, 341 f., 708-710.
Phenomenal object, 500-508.
Photometric brightness, relation to judgments of size, 464-474.
Pitch, absolute, identification of, 1-14; shifts in, 484-491.
Pitch-distance, influence on absolute pitch, 3-14.
Portrait, W. S. Hunter, facing p. 571.
Prejudice, nature of, *742 f.*
Probability-preferences in gambling, 56-67, in non-gambling risks, 81-94; reliability of, 68-95; with real money, 75; with worthless chips, 74.
Propaganda, *190 ff.*
Psychiatry, basic, *342;* case study manual, *391 f.;* law and, *390 f., 747 f.*
Psychoanalysis, personality and, *388 f.,* science and, *393.*
Psychologists, American, prestige and impact, 288-298.
Psychophysics, adjustment method, 546-550; comparative rating scales and, 321-326; judgments, 363-365; methods of single stimuli and paired comparisons, 96-103; ratio judgment-methods, 395-410; time-order effects, 327-334; *VEG* scale, 677-683.
Psychosis, *313.*
Psychosomatic case book, *754.*
Psychotherapy, for children, *198 f.*
Public opinion, *190 ff.*
Pursuit-movements, 268-277, 475-483.
Puzzle-picture, 550 f.

Rat, *see* Animal.
Rating scales, comparative, 321-326.

Ratio, frequency of auditory beats, 40-55; judgment-methods, 395-410.
Reading, teaching of, *197 f.*
Recall, verbal associates, 111-118.
Recognition, visual, 315-320; function of word-frequency, 700-703; visual traces, localization of, 338-340.
Recurrent images, 170-174, 360 ff.
Reinforcement, nondifferential, 133-137, 335-337, 717 ff.
Response-sequence, 363-365.
Retroactive inhibition, 299-307.
Reversible perspective, effect of brightness on, 341-342; effect of past experience on, 708-710.
Rocky Mountain Branch, of American Psychological Association, *see* Meetings.
Rotary pursuit test, 268-277.

Science, modern, *192 ff.;* pseudo-, *204;* psychoanalysis, *393;* social man, 748 f.; theory of, *192 ff.;* uses of, *204.*
Sensation, 'common' chemical, 696-699; functions, processes, and mechanisms, *383-386, 556;* human, *385 f.*
Serial learning, transfer and generalization in, 453-463.
Set, rôle in successive discrimination, 129-132.
Shock, electrical, 154.
Single stimuli, *see* Method of.
Size constancy, 411-426; effect of, on aim, 659-667; influence of brightness on, 464-474.
Smell, an olfactometer, 147-151.
Social psychology, *371-375, 752 f., 753 f., 754;* deprived and privileged, *570.* murder, madness, and the law, *390 f.;* prestige of various psychologists, 288-298; public opinion, *190 ff.*
Social science, essays, *748 f.;* prejudice, nature of, 742-743; psychotherapy for children and, *198 f.*
Society of Experimental Psychologists, *see* Meetings.
Southern Society for Philosophy and Psychology, *see* Meetings.
Space, auditory, 278-287.
Spearman's formulae in factor analysis, 155.
Statistical methods, *566 f.*
Stimulator, *see* Apparatus.
Stress, *394;* sensitivity to, 599-610.
Stroboscopic movement, 259-267.
Subjective color, 492-499.

Tactual tasks, performance of, after brain injury, 220-240.
Tests, coördination, 592; human fitness, 590-611; reaction-time, 593; tapping, 592; tracing, 592.
Textbook, abnormal, *746 f.;* experimental psychology, *555 ff.;* human relations, *202 f.;* industrial, *739 ff., 751;* industrial and business psychology, *392 f.;* industrial psychology, *202;* interviewing, *394;* introductory psychology, *561 ff.;* personality, *195 f. 203 f.;* personnel administration, *200 f.;* physiological acoustics, *735 ff.;* psychiatry, 372; reading, *197 f.;* sensation, *383 ff.;* social, *752 f.;* social psychology, *371 ff.;* statistical methods, *566 f.;* thinking, *194 f.;* visual perception, *204.*
Temporal changes in memory of visual form, 647-658.
Theory, behavior, *375 ff.;* cochlear mechanics, 39-55; learning, *394;* psychological, *386 ff.;* visual form, 205-219.
Thinking, *194 f.*
Threshold, form, visual, 205-219; recognition, visual function of word-frequency, 700-703; movement, visual, lower, 104-110.
Tilt, effect on pursuit-movements, 475-483; effect on object orientation, 500-506.
Time-order effects, theory of, 327-334.
Traces, visual, 338-340.
Transfer, rote serial learning, 453-463.

Uncertainty, methods for computing, 164-170.

VEG scale, 677-683.
Vexierversuche, history of, 579.
Vineland, social maturity scale, *754.*
Vision, acuity, Landolt's ring and fatigue, 509-512; binocular rivalry, 513-516; binocular subjective colors, 492-499; color, individual differences, *189 f.;* color blindness, *182 ff.;* critical flicker frequency, 632-646; critical review of theory, *182 ff.; 189 f.;* discrimination (monkey), 517-520; fatigue, 509-512; form threshold, 205-219, 427-440; 'Maxwellian view,' 530-532; movement, thresholds of, 104-110; quantal fluctuations, 152 f.; red light, 727-730; reversible perspectives, 341 f.; rod function, 727-730; traces, 338-340.
Vitamin deficiency, hoarding and, 124-128.

Western Psychological Association, *see* Meetings.
Word-frequency and learning, 138-140.
